PART 4 Questions 31–40

Complete the notes below.

Write **ONE WORD ONLY** for each answer.

Oxygen (氧气)
Hydrogen (氢气)
Nitrogen (氮气)
Carbon dioxide (二氧化碳)
Carbon monoxide (一氧化碳)
Ozone (臭氧)
Methane (甲烷, 沼气的主要成分)
Natural gas (天然气, 常简称为 gas)
Petrol (英)/ Gasoline (美) 汽油
Diesel 柴油

Listening

Céide Fields

- an important Neolithic archaeological site in the northwest of Ireland
新石器时代 考古学的

Discovery

- In the 1930s, a local teacher realised that stones beneath the bog surface were once 31 **walls** .
20 世纪 30 年代 Patrick Caulfield rows of stones
He realised that these must be walls

- His 32 **son** Seamus became an archaeologist and undertook an investigation of the site:
iron probes into the bog to map the formation of the stones for finding fuel buried in the bog for thousands of years.
- a traditional method used by local people to dig for 33 **fuel** 燃料
was used to identify where stones were located

- carbon dating later proved the site was Neolithic.
后来的碳定年法证实该遗址属于新石器时代

- Items are well preserved in the bog because of a lack of 34 **oxygen** .
extremely well-preserved Objects remain so well preserved in these conditions because of the acidity of the peat and the deficiency of oxygen. 泥炭的酸性和氧气的匮乏

Neolithic farmers

- Houses were 35 **rectangular** in shape and had a hole in the roof.
These weren't round as people often assume, but rectangular

- Neolithic innovations include:

- cooking indoors The pots were used for many things; as well as for storing food, pots were filled with a small amount of fat and when this was set alight, they served as lamps.
- pots used for storage and to make 36 **lamps** .

- Each field at Céide was large enough to support a big 37 **family** .
a suitable size to sustain an extended family.

- The fields were probably used to restrict the grazing of animals – no evidence of structures to house them during 38 **winter** .

Reasons for the decline in farming

- a decline in 39 **soil** quality The soil would have become less productive and led to the abandonment of farming.
- an increase in 40 **rain** .
But there were also climatic pressures too. The farmers at Céide would have enjoyed a relatively dry period, but this began to change and the conditions became wetter as there was a lot more rain.

PART 2 Questions 11–20

Questions 11 and 12

My name's Liz Fuller and I'm a running coach with Compton Park Runners Club.
 Welcome to my podcast. If you're thinking about taking up running – I'm here to help.
 There are many training programmes available online which aim to help people build up to running 5 kilometres.

Choose **TWO** letters, **A–E**.

Which **TWO** problems with some training programmes for new runners does Liz mention?

Some of them are great and thousands of people of all ages are taking part in 5-kilometre races across the country as a result.

- (C) (E) A There is a risk of serious injury.
 B They are unsuitable for certain age groups.
 C They are unsuitable for people with health issues.
 D It is difficult to stay motivated.
 E There is a lack of individual support.

People like them because they're easy to follow and don't push them too hard.

Another thing is that everyone is different – and if you have any specific questions related to your needs, there's no one to provide any answers.

However, they don't work for everyone – especially if you suffer from something like a heart condition or asthma, because they're aimed at people with average fitness and running ability.

Questions 13 and 14

Choose **TWO** letters, **A–E**.Which **TWO** tips does Liz recommend for new runners?

- (A) (D) A doing two runs a week
 B running in the evening
 C going on runs with a friend
 D listening to music during runs
 E running very slowly

I have a couple of simple tips I always give to new runners.

I expect you've been told to run very slowly until your fitness increases – well, I find that can prevent progress.

You should run at a speed that feels comfortable, but time yourself and try to run a bit faster each time.

Listening to music can be very helpful – it takes your mind off things and helps your body get into a rhythm.

I'd say that is better than running with a friend – especially as most people are competitive and that's not what you want when you're just starting.

I don't think the time of day is especially important – some people are better in the evening, while others are morning people – but you need to be consistent, so aim to train regularly – twice a week is enough to begin with.

Test 4

C19T4

Questions 15–18

What reason prevented each of the following members of the Compton Park Runners Club from joining until recently? 是什么原因导致康普顿公园跑步俱乐部的以下每位成员直到最近才加入?

Write the correct letter, **A**, **B**, or **C** next to Questions 15–18.

New members often say to me that they've been put off running either because they lack confidence, or they don't have time, or they think they dislike running.

Reasons

- A** a lack of confidence
- B** a dislike of running
- C** a lack of time

Club members

- (A) 15** Ceri Ceri, for example, joined the club two years ago at the age of 40. She'd always enjoyed running at school but wasn't sure if she'd be able to do it. She was worried about being left behind and being the slowest runner. But she says she was made to feel so welcome she soon forgot all about that.
- (B) 16** James James had always hated the idea of running but a friend encouraged him to come along for a taster session and he hasn't looked back. He never misses a training session despite having a really demanding job.
- (C) 17** Leo Leo was worried about having to commit himself to training sessions every week and wasn't sure he'd be able to fit training into his busy schedule. But after experiencing a lot of stress at work he came along to us and gave it a go. Now he says he feels much more relaxed and he looks forward to his weekly run.
- (A) 18** Mark Mark is quite typical of our new members. He's never considered himself to be a sporty person and it was only when he retired that he decided to take up the challenge of trying to run 5 kilometres. It took him months to find the courage to contact us but felt reassured immediately as there were other people his age who were only just taking up running for the first time.

Questions 19 and 20

Choose the correct letter, **A**, **B** or **C**.

- (C) 19** What does Liz say about running her first marathon?
- A** It had always been her ambition. My own journey hasn't been easy. I did my first marathon when I was 37, after having had two kids.
 - B** Her husband persuaded her to do it. My husband had been running marathons for years, but I never dreamed I'd be doing one with him.
 - C** She nearly gave up before the end. I managed to complete it in four hours, but I felt like giving up halfway through – it was only the support of the spectators that kept me going.
- (B) 20** Liz says new runners should sign up for a race
- A** every six months. 在开始跑步后的几周内
 - B** within a few weeks of taking up running. spectator n. spectators 单独一个一个人
 - C** after completing several practice runs. audience n. audiences 一群人

I do think signing up for a race of whatever length is motivating – whether it's 5K or 25K – because it's good to have something to work towards and it gives you a sense of achievement.

I did my first 10K after only six months, which was certainly very challenging and not something I'd necessarily recommend.

But after you've been training for a few weeks, it's worth putting your name down for a 5K.

Some people find they only need a few practice runs before taking part in a race, but I'd give yourself a couple of months at least.

Well, I hope that's given you a really good idea ...
